

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, October 19, 2015
@ Mendon Town Hall

F.Y.I.

1. The Highway Department concluded the fall brush pick up on Thursday, October 8, 2015. This two week pick up time is about the norm for the fall work.
2. This past week crews performed a small amount of ditching and shoulder work for the County. The crews also replaced two pavement problem areas on Probst Road and Topspin Drive.
3. We anticipate the start of the Dixon Woods drainage work this week. This project will replace the failing metal pipe under Dixon Woods between the first and second catch basins on the north side of the road, just west of Clover Street.
4. The new 6-wheel truck chassis arrived. Our mechanics will do a little prep work, and then the dealer will take it to Watertown where it will be outfitted with the box, plow, wing, and salter.
5. Last Friday began the start of the preparation for winter. A crew began the process of installing the delineators along the roads. A couple of trucks have had their salters installed, just in case we should receive some icy conditions.

Respectfully,

Gary P. Loope,
Deputy Highway Superintendent
