

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, October 20, 2014  
@ Mendon Town Hall

F.Y.I.

1. The fall brush pick up was completed last Friday.
2. We will be getting the County's road widener this week. We hope to complete all the shoulder work on both Town and County roads.
3. A small amount of work remains to be completed for the County. If weather permits, we hope to have that work completed in the next few weeks.
4. Also, we hope to install drainage pipe for the school district in the next few weeks.
5. Once the small jobs are completed, it will be time to prep the trucks for winter, install delineators along the roads, and install snow fence. Snow and ice contracts with the County and State should be arriving soon for approval by the Town Board.

Respectfully,

William E. Smith,  
Highway Superintendent
