

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755

Town Board Meeting, October 7, 2010
@ Mendon Town Hall

F.Y.I.

1. Brush Pick Up - The Highway Department started the fall brush pick up this past Monday.
2. Soccer Field Bathroom – The holding tank for the concrete bathroom has been delivered and installed in the ground. The above ground unit should be delivered any day. Installation will coincide with delivery. Funds for this project were from a Community Development Block Grant through Monroe County.
3. Assist Village Paving – The highway department sent three trucks and drivers to the Village to assist with the paving of the parking lot at the Waste Treatment Plant. The Town will be reimbursed for the labor costs.
4. Ice Rink - The boards have been removed from the Mendon Center Tennis Courts and will be utilized at the Semmel Road Ice Rink. The Highway Department has also moved the building at the Mendon Center facility to the Semmel Road Park for storage. The building will be moved from the parking lot to an area near the restrooms, as soon as weather permits.
5. Winter Preparations – Highway mechanics have begun preparing the large trucks for plowing and salting. Installation of delineators and snow fence will begin, once the brush pick up ends.

Respectfully,

William E. Smith
Highway Superintendent
