

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, November 9, 2015  
@ Mendon Town Hall

F.Y.I.

1. The Dixon Woods drainage work appears to have gone well. The guys were able to keep the new pipe out of the road and remove the old pipe from the road. The final touches were put on the shoulders, today. This included grading and seeding.
2. The nice weather last week allowed us to perform a little more work for the County on Mendon Center Road (Pittsford). Some bad spots were cut from the road and refilled with blacktop. Some shoulder touch up work was also completed.
3. Preparation for winter continues. Crews are working on the delineator posts and snow fence. The mechanics are preparing the trucks mechanically as well as installing the plows, wings, and salters.
4. A highway crew will be doing minor repairs to Hopkins Point Road at Clover Street. We will be replacing some fill and placing blacktop near the intersection. The drainage pipe may need replacement, but that will not be know until we are into the job.
5. Thursday we will be traveling to Watertown to view the new truck chassis and give final approval for installation of plow, wing, box and salter.
6. Sensonig has ground the collected brush and removed the mulch from the Highway Department. This was completed at no cost to the Town.

Respectfully,

William E. Smith,  
Highway Superintendent
