

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, December 10, 2012
@ Mendon Town Hall

F.Y.I.

1. Early Saturday, December 1, the Rochester Water Department experienced a break in a 30" main. The break was located on SR 251, between Junction Road and Plains Road. The break necessitated the closure of the section of SR 251 for several days.

A call was received requesting the assistance of Highway Department personnel for traffic control. Two employees were dispatched, and spent app. 5 hours at the location. The water flowed down Plains Road causing damage to the ditches. The ditches will require repairs.

The Rochester Water Department was contacted and they provided a form, if the Town wants to make claim for the damage. Both the Town insurance carrier and the Town Attorney have been made aware of the situation.

2. The Highway Department is ready for winter. The State snow and ice contract is on the agenda. We are still awaiting the County's contract, the wording of which is being reviewed by the County.
3. The mild start to winter has allowed us to complete a couple small projects for the County: shoulder work on W. Bloomfield and Mile Square Rds., and tree trimming on Smith Road.

Respectfully,

William E. Smith,
Highway Superintendent
