

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755

Town Board Meeting, December 13, 2010  
@ Mendon Town Hall

F.Y.I.

1. Relative to winter weather, November was an easy month. The decent weather allowed personnel to install the delineators and snow fence with relative ease.
2. December 1, saw a change in the weather and we experienced our first winter storm. During the first 5 days of December, road crews spread app. 260 ton on road salt.
3. During November a drainage problem on Langpap Road was addressed. A bank was cut back and large stone put in place. This should ease the drainage problem. The County gave some of the large stone to the Town from a replacement bridge project on Pinnacle Road.
4. The Semmel Road Park skating rink was installed. The freezing temperatures should produce the ice, unless snowfall insulates the surface. Hopefully the rink will be ready for the holiday season.

Respectfully,

William E. Smith  
Highway Superintendent
