

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, December 8, 2014  
@ Mendon Town Hall

F.Y.I.

1. The highway department finished up the County work today. We were able to get the County's road widener and finish the shoulder work on Parrish Road.
2. The drainage work for the school has been completed. The bill has been prepared for submission to the school. We were able to complete the work approximately \$2,700 under estimates.
3. The Hamlet flags and banners have been removed. New American flags have been purchased to replace those that have weathered.
4. The wooden framework for the ice rink has been installed and the plastic liner should be installed shortly.
5. The majority of the snow fence and delineators has been installed.
6. The Highway Department and local drivers experienced a taste of what is to come this winter. The first snows arrived mid-November requiring crews to respond with salt and some plowing.

Respectfully,

William E. Smith,  
Highway Superintendent
