

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, February 10, 2014  
@ Mendon Town Hall

F.Y.I.

1. The colder winter has provided for many more slippery conditions. Unfortunately the slippery conditions not only pertain to the ice rink, but to the roadways. Highway crews have spent many hours on the roads plowing and applying salt. We are well ahead of last year as far as miles driven, salt usage, and overtime.
2. When time has allowed highway crews have clean the drainage retention area on SR251, east of Hawks View. This should help the water run from the development towards SR251, and reduce any flooding.
3. The Highway Superintendent will be meeting with our elected State representatives this week. The purpose of the meeting is to voice our concerns and enlist their support. Highway Superintendents will also meet with their representatives in Albany, the first week in March. Our local representatives' support is crucial to continued and/or increased CHIPS funding.

Respectfully,

William E. Smith,  
Highway Superintendent
