

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755

Town Board Meeting, April 11, 2011  
@ Mendon Town Hall

E.Y.I.

1. The ice rink has been disassembled and the tennis nets put in place for the summer.
2. A rental sweeper has been picked up. Town roads will be swept over the course of the next two weeks. County and State intersections will also be swept as a part of the Snow and Ice program.
3. Highway department personnel have begun some of the County's summer work. They are currently working on Pond Road in Mendon Ponds Park. We will also be working on Boughton Hill Road, Pittsford-Mendon Center Road, Smith Road, W. Bloomfield Road, and West Main Street.
4. We have been notified that our new loader is in and ready for delivery. Arrangements have to be made for the transfer of the scales from the old to new machine.
5. We expect to take a break during brush pick up (May 16) for a few days to conduct work on Huntington Heights and Braemar Way. These roads are a CHIPS project. We have amassed approximately 1,000 ton of stone at the garage to insure stone is available.

Respectfully,

Gary P. Loope,  
Deputy Highway Superintendent
