

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755

Town Board Meeting, April 12, 2010  
@ Mendon Town Hall

F.Y.I.

1. The accumulation of papers, bottles, and other debris along Town roads has been picked up by highway crews. Again, this year, the County chose not to fund a pick up along County roads.
2. The tarp for the ice rink at Semmel Road has been removed.
3. Banners have been put in place in the Hamlet. The number of banners is dwindling due to the effects of the weather. The highway department fabricated flag holders that should hold the American Flags in place much better. These also have been installed.
4. The license for the new gasoline tank has been received from the DEC.
5. Highway crews have done some ditching along Town and County roads. Along with our excavator, we utilized Pittsford's mini-track excavator. Henrietta also sent their large flusher machine to clean out some of the pipes. Should they need assistance some time in the future, we will try to assist them.
6. The Highway Department has rented a sweeper from Cyncon Equipment. We will have the sweeper for app. 2 weeks. During this time we hope to sweep the majority of Town roads.

Respectfully,

William E. Smith  
Highway Superintendent
