

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, April 14, 2014
@ Mendon Town Hall

F.Y.I.

1. Assuming winter has runs its course, the Highway Department has set Thursday, May 1, 2014 as the start date for the spring brush pickup. Ads have been placed in the Penny Saver and the Sentinel. The Highway Department website has been updated with the information.
2. Highway crews have been out along Town roads picking up the trash that has accumulated since last spring. Crews have also been picking up the road delineators and snow fence/posts.
3. A Highway Department crew responded to Park and Railroad Mills (Pittsford) at the request of the county to repair a catch basin that had failed. The failed catch basin was removed and replaced with a new catch basin. Personnel will have to return, once the blacktop plant open to finish the job.
4. Last Monday evening Scouts, parents and leaders from Troop 10 toured the Highway Department facilities. They were able to view the assorted equipment utilized in performing the various tasks of a highway department.
5. We have been advised that the CHIPS allowance has been increased by app. \$6,000 this year. The increase is meant to help cushion the effect of the harsh winter on local roads and the costs of repair.
6. Tennis nets have been installed at both Semmel Road and Mendon Center Parks.

Respectfully,

William E. Smith,
Highway Superintendent
