

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, April 8, 2013
@ Mendon Town Hall

F.Y.I.

1. The Highway Department has tentatively scheduled Monday, May 6, 2013, to start the spring brush pick up.
2. NYS Department of Transportation is in the process of removing the deer reflectors along SR 65. They believe the reflectors are no longer effective.
3. The winter clean up is progressing. Snow fence and delineators have been removed. We are in the process of repairing lawns and sweeping roads where necessary. The snow and ice equipment is in the process of being removed and will receive its customary preventive maintenance.
4. Highway crews have also been out along Town roads picking up litter and debris.
5. The Highway Department is also in the process of enlarging the parking area at Driesbach Field. A layer of soil has been removed and will be replaced with stone and topped with millings.
6. Highway personnel attended a 6-hour class on Defensive Driving. Those that did not attend last week will attend next week. Our personnel are run through the program every 3 years.

Respectfully,

William E. Smith,
Highway Superintendent
