

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, May 14, 2012
@ Mendon Town Hall

F.Y.I.

1. Spring brush pick up commenced on March 30, 2012. After about 10 days, the pick up was suspended in order for the old excavator to be transported to Palmyra for auction.
2. The new Volvo excavator was picked up last Thursday and transported to the dealer, Vantage Equipment. The excavator will be outfitted with its thumb and returned to the Highway Department this week. Brush pick up will continue with the new excavator.
3. The break in brush pick up will allow the Highway Department to conduct some road work:
 - a. The southern half of Amann Road will be resurfaced with a cold mix material. This is a CHIPS Project with funding from New York State. Rush Highway Department will be assisting.
 - b. Pond Road, from Douglas Road to SR 65 (Clover Street) will be resurfaced. This is a Monroe County project. Rush Highway Dept. will also assist with this project.
 - c. Mendon will assist Rush Highway Department with the resurfacing of #6 Road, another County project.
- 4.

Respectfully,

William E. Smith,
Highway Superintendent
