

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, May 9, 2016  
@ Mendon Town Hall

F.Y.I.

1. The spring brush pick up is progressing. Everything east of West Bloomfield Road was picked up in about a week and a half.
2. The trucks that are to be sold were taken to Palmyra last Wednesday, and the remaining items will be taken tomorrow. The auction is scheduled for Saturday.
3. The new pick up trucks have arrived at the dealer. The F-150 should be delivered at any time, and the F-250 within the next few weeks.
4. The NY Dept. of Labor, Public Employees Safety and Health Division (PESH), paid an unannounced visit the Highway Department the third week in April. PESH inspected the buildings and equipment for safety concerns. We have received a preliminary report of items that will need to be corrected. The formal report, with time lines will be forthcoming. Several of their concerns have already been addressed.
5. A meeting was held with the Highway Superintendent, Town officials, and the Town Engineer to discuss the salt barn. We have received an estimate as to cost and time line for construction of a salt facility.

Respectfully,

William E. Smith,  
Highway Superintendent
