

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, July 13, 2015
@ Mendon Town Hall

F.Y.I.

1. The Highway Department has been busy with road projects,, both Town and County. The following roads received a surface treatment of stone & oil:
Mile Square Road, SR 251 to the Pittsford Town Line,
Barker Road (Pittsford)
Semmel Road
Cheese Factory Road, SR 64 to Victor Town Line
Kingsbridge Lane
Chillington Lane
Smith Road, West Bloomfield Road to Mile Square Road
Quaker Meeting House Road, Cheese Factory Road to Boughton Hill Road,
received a treatment of Nova Chip.
2. Fords Crossing, Mendonshire Drive, and Taylor Road (W. Bloomfield to SR 64) were prepared for paving. This paving should be conducted within the next week or two.
3. Repairs to catch basins/pipes had to be made on Windham Hill, Hampshire Lane and Tennyson Way. The pipes had deteriorated in these housing developments, and the heavy rains created sink holes around the catch basins. Unfortunately, these are an indication of problems to come as our storm drain system ages.
4. In the spirit of continued cooperation, Highway personnel worked with Rush Highway Department on some of their road projects for both Rush and Monroe County. It should also be noted that Rush Highway personnel worked with us on Town and County projects. Henrietta Highway Department also sent their sweeper to clean some of Mendon's town roads after they had been surface treated.

Respectfully,

William E. (Bud) Smith,
Highway Superintendent
