

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, August 10, 2015  
@ Mendon Town Hall

F.Y.I.

1. Last week the Highway Department cut the shoulders on West Bloomfield Road between Boughton Hill Road and the Monroe County line. A foot of blacktop and 3 foot of shoulder were removed and replaced with blacktop. The intent is to beef up the shoulders to protect the road pavement. In addition the project will provide a wider surface for pedestrians and cyclists. Estimates for this county work are in the area of \$217,000. Highway departments from Rush, Pittsford and Ogden assisted with the work.
2. The Highway Department also paved Taylor Road between SR 64 and West Bloomfield Road. This work was conducted as a CHIPS project, with most of the funding from NY State.
3. The Highway Department removed the carpet from the Community Center in preparation for installation of new carpet.
4. Town roads are being reviewed to determine maintenance needs in 2016. Once the needs are ascertained, we will determine the best way to address the needs. The costs will be estimated and made a part of the 2016 budget.

Respectfully,

William E. (Bud) Smith,  
Highway Superintendent
