

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, August 12, 2013
@ Mendon Town Hall

F.Y.I.

1. The Highway Department worked on the Town and County roads, giving them a coat of stone and oil. In a few weeks, Cheese Factory Road will receive a second shot of stone and oil. Mendon was assisted with crews from Rush, Pittsford, and Perinton. Mendon also provided assistance to Rush with their projects.
2. Work for the County was also conducted on Smith Road. The pavement material was taken up and put back down with the addition of stone and calcium chloride. This will provide a good base. The road, in a few weeks will receive a coating of stone and oil.
3. The Highway Department continued to assist the Village of Honeoye Falls with the North Main Sewer Project. 3 of our personnel assisted during the evening hours, so as to cause as little disruption to the bank and Library as possible.
4. It is planned to mill and fill of Trout Creek in late August. We hope to have the job completed prior to the start of school.
5. The Highway Department has provided 2 trucks and 4 personnel to assist the County Road Crew with the placement of shoulder material on County roads.
- 6.

Respectfully,

William E. Smith,
Highway Superintendent
