

Mendon Highway Department  
101 Semmel Road  
Honeoye Falls, NY 14472-9755  
Town Board Meeting, August 8, 2016  
@ Mendon Town Hall

F.Y.I.

1. The nova chip resurfacing of East Street and Quaker Meeting House Road went well. Our temporary County roads manager was out on the job and asked that we do additional work on several East Street catch basins.
2. The PESH inspector returned to check on our progress and ensure the safety problems were being addressed in a timely manner. Other problems noted, with longer completion deadlines are being addressed and we appear to be on schedule for their completion.
3. The ceiling and carpet in the "new section" of 15 Monroe Street, the old library, has been removed in preparation for the storage of items used in the summer recreation program.
4. A representative of the Monroe County Storm Water Coalition visited the Highway Department facilities. The representative, Harry Reider, walked the property and discussed his observations.

Respectfully,

*Bud*

William E. (Bud) Smith,  
Highway Superintendent
