

Mendon Highway Department
101 Semmel Road
Honeoye Falls, NY 14472-9755
Town Board Meeting, April 10, 2017
@ Mendon Town Hall

F.Y.I.

1. It appears that the area received one last big snow storm for the winter of '16-'17. The Town was spared any major damage due to the amount of snow. Attached are some figures submitted to Monroe County as a result of "winter Storm Stella".
2. New York's budget passage has been delayed. As a result, CHIPS figures have not been made available, nor have any possible increases in road funding.
3. A summer work meeting was held last Thursday with Monroe County DOT and Town Superintendents. County road work was discussed and possible assignments of those jobs to the Towns.
4. Highway crews finished the removal of delineators along the roads and snow fence. They then proceeded to pick accumulated trash along Town roads.
5. Jim Parker will be giving a presentation on Workplace Violence and employee relations on Wednesday, April 26. Jim is associated with Educational Resources Associates. This is the company that is contracted to oversee the CDL testing of drivers and provides employee counseling services.
6. As a reminder, the Highway Department is still on schedule to start the Spring brush pick up on April 24.

Respectfully,

William E. Smith,
Highway Superintendent
